EN MATERIAL

The structure of the SEAX armchair and lounge chair is made of powder coated die-cast aluminum. The seat and back textile is a mix of PVC, acrylic and polyester. The armrest covers are made out of teak-finished plywood. Clean the frame, seat and backrest with a soft cloth and warm water. Clean the plywood armrest covers with a damp cloth and do not apply cleaning detergents of any kind. To maintain their beautiful wood finish, the SEAX armchairs and lounge chairs with plywood armrests should be protected from moisture and kept indoors when not in use. For a low-maintenance seating alternative, choose the armchair and lounge chair without plywood armrests.

DE MATERIAL

Die Rahmen von SEAX Armlehnstuhl und Sessel bestehen aus pulverbeschichtetem, druckgegossenem Aluminium. Sitzfläche und Rückenlehne bestehen aus einem Stoff, der aus PVC, Acryl und Polyester gefertigt wird. Das Holzdekor der Armlehnen besteht aus mit Teakholz beschichtetem Schichtholz. Rahmen, Sitz und Lehne mit einem weichen Tuch und warmem Wasser reinigen. Die Schichtholz-Armlehnen reinigen Sie mit einem feuchten Tuch und niemals mit Reinigungsmitteln. Schützen Sie die SEAX Armlehnstühle und Sessel vor Feuchtigkeit und bewahren Sie sie im Innenbereich auf, wenn Sie sie nicht nutzen, damit die schöne Holzoberfläche nicht leidet. Als pflegeleichte Alternative wählen Sie den Armlehnstuhl oder den Sessel mit Armlehnen ohne Holzoberflächen.

EN MATERIAL

The base consists of powder coated aluminum profiles with powder coated, die-cast aluminum legs. Mineral composite tabletops come in three options: White, ebony and talc tabletops consist of a self-supporting mineral-composite slab, cut by water jet from the largest premium sintered porcelain slabs available on the market. Teak tabletops consist of premium teak. The sealant used between the teak slats are the same as those widely used on yacht decks and are designed to expand and contract with teak's natural movement. Wash using DEDON teak cleaner. To retain the golden-brown color of unweathered teak, we recommend applying DEDON teak oil at least once in every six months.

DE MATERIAL

Das Gestell besteht aus pulverbeschichteten Aluminiumprofilen mit pulverbeschichteten Aludruckgussbeinen. Die Tischplatten aus freitragendem Mineralverbundmaterial sind in drei Farbvarianten verfügbar: white, ebony und talc. Das Material wird per Wasserstrahl aus den größten am Markt erhältlichen gesinterten Porzellanplatten geschnitten. Einfach mit einem weichen Tuch und warmem Wasser zu reinigen. Die Teak-Tischplatte besteht aus hochwertigem Teakholz. Dichtungsfugen zwischen den Teakleisten erlauben dem Holz, sich im Rahmen seiner natürlichen Bewegung auszudehnen bzw. zusammenzuziehen. Reinigen Sie das Teakholz mit DEDON Teak Reiniger. Um den ursprünglichen goldbraunen Farbton zu bewahren, tragen Sie mindestens alle sechs Monate das DEDON Teak Öl auf.
