

SOMBRERO

CANOPY

258

The SOMBRERO canopy is versatile and highly customizable.

Various roof and wall options create privacy and shade.

Made with a sturdy aluminum frame, these canopies are suitable for hospitality and residential.

In case of heavy winds or storms and snow, close or remove curtains to avoid damage.

Materials

OUTDOOR SPACE SUGGESTIONS Extend the lifetime of your furniture

It is our goals to give you as much possible options and advise, so you can enjoy your furniture for a very long period.

Tip : For use on grass or sand or uneven areas, advised to opt for sled legs, instead of post legs.

Tip : Tables with self-levelling gliders are available in certain collections.

OUTDOOR (FULLY EXPOSED)

FRAME :

- Ultra Durable Powder-coated Aluminum / Stainless Steel
 - Teak
- 304 Stainless Steel

Tip : Select furniture pieces > 20 Lb / 9 Kgs in windy areas.

Tip : Use protective covers when not in use (Do not cover dirty or wet furniture for extended periods of time).

Clean and maintain your furniture regularly.

MARINE / COASTAL ENVIRONMENTS

FRAME :

- 316 Stainless Steel
- Ultra Durable Powder-coated Aluminum
- Teak

Tip : Select furniture pieces > 20 Lb / 9 Kgs.

Tip : Use protective covers when not in use (after cleaning).

Tip : Store cushions inside if possible.

Clean and maintain your furniture very regularly.

COVERED (SEMI-OPEN AREAS)

FRAME :

- Powder-coated Aluminum / Stainless Steel
 - Teak
- Galvanized Steel
- 304 Stainless Steel

Tip : Let the furniture breath, avoid covering for long periods. Cleaning will extend the beautiful looks of the furniture.

POOL FURNITURE

FRAME :

- Ultra Durable Powder-coated Aluminum
- Teak
- 316 Stainless Steel

Tip : Use mesh textiles as much as possible.

Tip : Use protective covers when not in use

(Do not cover dirty or wet furniture for extended periods of time).

Clean and maintain your furniture regularly.

Teak (scientific name *Tectona Grandis*) is a premium hardwood, native to South East Asia, with a very high natural oil content. Highly resistant to rotting, fungi, warping and water absorption, teak remains durable even in an extreme climate.

Exposed to sunlight, the color of teak will gradually change from honey brown to silver grey. This weathering does not affect the performance or quality of the timber. Various products are on the market to clean, protect or restore teak.

PREMIUM TEAK

Grade A sustainably harvested teak is carefully sourced from responsibly managed and fully certified teak farms in Java. Smooth sanded teak looks best with simple, regular cleaning, especially if the furniture is placed under trees or used regularly for dining. Wash with a mild household soap and lukewarm water to avoid mildew, caused organically by dirt gathering in the grains and notches.

All Mamagreen teak furniture is treated with Golden Care “Teak Shield”, whose protective layer protects against marks, without stopping the silver grey weathering process.

T24 PREMIUM TEAK SMOOTH SANDED

WEATHERED SILVER GREY

RECYCLED TEAK

When possible, we use reclaimed teak from abandoned buildings. Recycled teak has character : From holes where bolts were used, to nail holes, damage from hinges and other imperfections; all combine to give recycled teak its unique look. We do not attempt to hide these characteristics; we feel that each aesthetic imperfection in the wood adds to the exceptional feeling in the furniture.

DRIFT-LOOK TEAK

MAMAGREEN drift-look teak is showcasing both natural and handmade distress marks. This 'extra-distressed', recycled teak is then finished, either 'as original', or in rich espresso. Highly contemporary, texture-rich Drift-look teak is used in our iconic AIKO Collection.

T31 RECYCLED TEAK BRUSHED

T30 RECYCLED TEAK SMOOTH SANDED

F36 ORIGINAL FINISH

HPL

Italian manufactured High Pressure Laminate (HPL) is an eye-catchingly modern element for outdoor furniture, which will complement any residential or commercial space. Advanced technological manufacturing involves bonding sheets of kraft paper and aluminum with animoplastic resins, using high pressure and heat.

HPL tops do not require particular maintenance that goes beyond normal cleaning with hot water and liquid soap. Common detergents and solvents, thinners and steam can be used for stubborn stains. Avoid, however, any alkaline or bleach products. Stains on Alpes White could be more visible and a bit more difficult to clean, compared to multi colored stone motives. As HPL has anti-static capacities, table tops do not attract dust. Wax or wax based products should not be applied as protection.

Extreme UV-exposure will cause some discoloration, without impacting the structural integrity of this material; protective covers will extend the beautiful look for many years.

MAMAGREEN METAL FRAMES

INTEGRAL DESIGN

MAMAGREEN furniture pieces are, for the most part, designed around a strong, durable metal structure. Made to perform well, our metal frames come in different textures and colors that withstand the challenges of commercial and residential use.

ALUMINUM

Rigid, yet light weight, alloy 6063 aluminum is a sturdy metal, very well suited for outdoor furniture, with structural anti-rust capacities. Powder coating protects against surface corrosion. Applying electrostatically charged dry paint, baked in an oven, the paint becomes a protective layer with a uniform color and texture.

Powder coated frames can be easily cleaned with a soft brush and soapy water. To handle the occasional scratch mark, we provide touch up kits in a similar color.

STAINLESS STEEL

Unmatched in strength and beauty, stainless steel frames are extremely suitable for most outdoor environments.

We generally use 304 stainless steel, an iron alloy with a high corrosion resistance, thanks to its unique chrome addition and nickel content, in a hairline finish, with subtle continuous, uni-directional grind marks. This finish will last well, when regularly cleaned, however, susceptible to tea staining is not advised in a marine environment, exposed to chlorinated or salt water.

A number of our collections are available with powder coated 304 stainless steel frames. This finish will perform very well - also in a coastal environment - protected by a UV resistant, durable, low maintenance powder coating on top of a strong epoxy primer.

Marine grade 316 stainless steel in a shiny mirror look finish is used in the ALBATROSS Collection, and available for custom projects, such as beach front properties or cruise ships.

304 HAIRLINE FINISH

316 MIRROR POLISHED

GALVANIZED STEEL

Powdercoated Galvanized Steel, protected with a zinc layer, has high corrosion resistance. Furniture made with a galvanized steel frame is very sturdy, and suitable for windy areas such as rooftops, but not advised for beachfront properties.

The industrial production process creates a random textured surface which is part of the design.

WICKER | FLAT WEAVE

Our design team created five distinct color patterns for the Daisy Mae range. Mix and match with our powder coating and textile colors, create a look that blends in or stands out.

MAMAGREEN's wicker, made from high density polyethylene, is highly color fast and extremely weather resistant (suitable both in tropical and cold environments).

Carefully handwoven, wicker furniture pieces are durable, non-toxic, recyclable and easy to clean with liquid soap.

TWITCHELL TEXTILES

Made in the USA by Twitchell Corp

Ideal for heavy duty upholstered chairs and lounge frames, these textiles are made of stiff PVC coated polyester mixed with polyolefin.

The Leisuretex closely woven yarn, with water repellent back-layer increases the outstanding all-weather benefits of this robust, durable technical textile.

Furniture made from Twitchell fabrics will last many years, though a minimal deterioration of the olefin fibers may occur after time. This synthetic textile is easy to clean with a water / liquid soap mix and a soft scrubber.

Rope

ROPE

MAMAGREEN's rope is made of olefin, an Oeko-Tex certified synthetic fabric and has high weatherability and anti-mildew capacities. Colors can weather slightly yet remain vibrant for an extended period of time. Ideal to clean stains and spills as soon as possible with a dry cloth. Regular cleaning with soapy lukewarm water, will extend the good looks of the furniture pieces.

TEXTILENE® SLING

Made in the USA by Twitchell Corp

Ideal for various mesh applications, these textiles are made of stiff PVC coated polyester. We offer 3 Navaho style "Stripe" patterns, 2 Pinstripe patterns and a gold accented pattern "Royal Black".

Textilene is a durable, versatile fabric. Tear strength and tensile capacities are very high, making it suitable in any outdoor environment. Not affecting the quality of the textile, striped yarn colors may weather slightly over extended periods of time. This synthetic textile is easy to clean with a water / liquid soap mix and a soft scrubber.
